Introduction

Asfalisis Advisors is a leading professional services firm committed to **helping organizations prepare, respond, and recover from disruptions** that impact their reputation, operations, or finances. Since our inception in 2014, we have been committed to safeguarding the legacies of leaders and guiding organizations through crisis management challenges.

Core Services

Assessment and Audits

We provide comprehensive assessments and audits, empowering organizations to uncover blind spots and define their pain points.

Risk and Emergency Planning

Our team develops robust business continuity and crisis management programs, policies, and procedures, building infrastructures to ensure resilience in adversity.

Training and Development

Through people-focused training exercises, education, and thought leadership, we invest in enhancing organizational culture and capabilities.

Thought Leadership

We offer thought leadership resources and guidance, empowering our clients with strategic vision and the ability to execute confidently.

Security (Physical and Cyber)

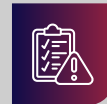

Through our partnerships in physical and cyber security, we help organizations mitigate risks and safeguard their assets.

Our Value Proposition

Cost Savings and Improvements

We identify opportunities for cost savings and improvements to help clients manage resources effectively.

Risk Assessment and Prioritization

Using our proprietary framework, we uncover risks, set priorities, and drive investments to enhance resilience capabilities.

Facilitated Response

With experience responding to numerous incidents across various industries, we facilitate efficient and effective crisis responses.

Targeted Programs

Our solutions target programs by department, location, and across the enterprise, maximizing resilience.

Enthusiasm for Risk Management

We inspire high energy and enthusiasm for risk management, aligning efforts with purpose and driving organizational success.
